

## GB Operating Instructions

Thank you for choosing a Paradies product.  
Take your time and read the following instructions and information completely.  
Please keep these instructions in a safe place for future reference.

### 1. Explanation of warning symbols and notes

#### Risk of electric shock

- This symbol indicates a risk of electric shock from touching product parts carrying hazardous voltage.
- Dispose of packaging material immediately in accordance with the locally applicable regulations.
  - Do not modify the product in any way. Doing so voids the warranty.
  - The product is intended for private, non-commercial use only.
  - The product is intended only for use inside buildings.
  - Do not use the product in the immediate vicinity of heaters, other heat sources or in direct sunlight.
  - Only use the article under moderate climatic conditions.
  - Do not use the product in areas in which electronic products are not permitted.
  - Route all cables so that there is no risk of tripping.
  - Never connect multiple units of this product in series.
  - The product must only be operated on a supply network as described on the type plate.

#### Warning

This symbol is used to indicate safety instructions or to draw your attention to specific hazards and risks.

#### Note

This symbol is used to indicate additional information or important notes.

### 2. Package contents

- Socket cube
- These operating instructions

### 3. Safety instructions

- Use the product only for the intended purpose.
- Do not operate the product outside the power limits specified in the technical data.
- Protect the product from dirt, moisture and overheating and use it in dry environments only.
- Do not use the product in a damp environment and avoid splashing water.
- Do not continue to operate the product if it is visibly damaged.
- Do not bend or crush the cable.
- Do not drop the product and do not expose it to any major shocks.
- Always pull directly on the plug when disconnecting the cable, never on the cable itself.
- As with all electrical products, this device should be kept out of the reach of children.

#### Risk of electric shock

- Do not open the device or continue to operate it if it becomes damaged.
- Do not use the product if the AC adapter, the adapter cable or the mains cable are damaged.
- Do not attempt to service or repair the product yourself. Leave any and all service work to qualified experts.

#### Warning

- Only operate the product from an approved socket that is connected to the public power supply. The socket must be installed close to the product and must be easily accessible.
- Disconnect the product from the power supply using the On/Off switch – if this is not available, unplug the power cord from the socket.
- If using a multi-socket power strip, make sure that the total power consumption of all connected devices does not exceed the power strip's maximum throughput rating.
- If you will not be using the product for a prolonged period, disconnect it from mains power.

### 4. Operation

#### Warning – Connection of devices

- Before connecting a device, check whether it can be adequately supplied with the charger's current delivery.
- Ensure that the total output of all the connected devices does not exceed 17 W.
- Note the instructions in your device's operating manual.

### 7. Technical data

Mains connection 250 V ~ / 16 A

Connected load max. 3680 W

#### Specifications according to Regulation (EU) 2019/1782

Brand name, commercial register number, address dm-drogerie markt GmbH + Co. KG HRA 102711 Am dm-Platz 1, 76227 Karlsruhe, Germany

Model identifier 1D222981

Input voltage 230-250 V

Input AC frequency 50/60 Hz

Output voltage / output current / output power 5.0 V DC/ 3.4 A/ 17.0 W

Average efficiency during operation 82.2 %

Efficiency at low load (10%) 78.6 %

Power consumption at zero load 0.10 W

### 8. Information on disposal and environmental protection:

The consumer is required by law to properly dispose of electronic devices, as well as bulbs and batteries, at the end of their life. There are free return points for old electrical equipment available near you to return your old device. As a distributor of electrical equipment, in accordance with Section 17 (1) and (2) Electrical and Electronic Equipment Act, we are obliged to take these back free of charge. Accordingly, you are able to return old electrical equipment which we are obliged to take back under the terms of this regulation free of charge to any of our dm branches during their normal opening times. The user is responsible for erasing any personal data prior to returning the item. Batteries and illuminants that are not permanently integrated into electronic devices and can be safely removed must be removed and disposed of separately prior to disposal of the item. Details on legally compliant disposal are governed by applicable local law. The symbol of a dustbin with a line through it means that electronic devices and batteries must not be disposed of in household waste at the end of their life. The characters below the symbol indicate any substances contained in the item. Pb for lead, Hg for mercury, Cd for cadmium. Electronic devices and batteries may contain valuable resources that are hazardous to human health and the environment. By recycling or collecting and reusing electronic devices / batteries separately, you are making an important contribution to protecting human health and the environment.
